

PREPARE/ENRICH Online Profile

The PREPARE/ENRICH Online Profile is required of all couples to be married at Valley and is used as a guide to the premarital preparation. It is not a psychological test of any sort, and results on it are not used to exclude couples from being married at Valley. It is simply an inventory of marital and pre-marital issues.

The Adult Ministry Office will send the PREPARE/ENRICH online profile link to the couple's email addresses. The profile results will be sent via email directly to the Pastor of Marriage and Family. The online profile is used by the Pastor of Marriage and Family and is shared with the marriage mentor couple for pre-marital mentoring. The couple will pay for the scoring online. The fee is \$29.95 per couple. The results of the profile are destroyed upon completion of the pre-marital mentoring.

Please keep in mind that while PREPARE/ENRICH results help guide the pre-marital preparation, the results and covering those results in the pre-marital preparation is no guarantee of a successful marriage. There are a number of factors that contribute to marital success and no pre-marital preparation program can guarantee success.

Should it be impossible for the couple to complete the full pre-marital preparation at Valley, please contact the Pastor of Marriage and Family. We will make every effort to try to accommodate the couple's needs and circumstance.
